Radio Browser

If you haven't heard about the awesome Alexa skill called Radio Browser you should check it out.
The add on does some really awesome stuff, but I'll tell you how I use it.

I happen to run a Jazz radio station (mainly just for me and my family) and I love being able to walk throughout my house and ask my Amazon devices to play the "radio browser". Now I have it setup so that the "only" station that this skill plays is my stream meaning I don't have to say anything else to her to get her to play my music. I don't have to tell it to play a specific station.

There are LOADS of stations that are available, I just want to hear my own music.

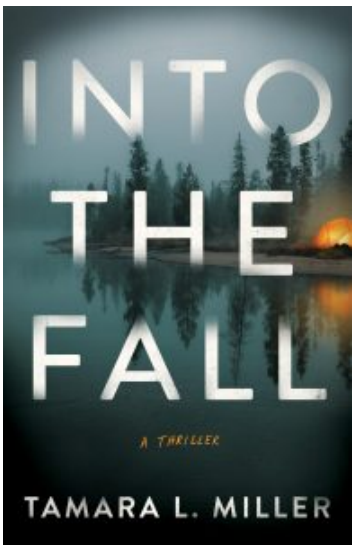

The add on is completely free for 14 days and then if you'd like to add your own stations to radio browser there is a small charge but is completely worth it.

Tamara Miller ~ Into the Fall

Version 1.0.0

Amazon First Read. Started on 3/25/25. Finished on 4/2/25. 9 Days!!

Wow! Matthew & Sarah have been married for 9 years. They have 2 kids. Their marriage isn't doing well. Sarah doesn't know much about Matthew's past and Matthew goes off on his own quite a bit.
A family camping trip should fix everything but things go terribly wrong and Matthew goes missing.
Did Sarah do it? Did Bella do it? Izzy, Sarah's sister comes to help.

This one had me on the edge of my seat! Giving it a 10. I couldn't put it down.
