

Colleen Hoover – Verity

Started this book on 8/22/22. No input yet. 8/28/22 finished. OMG!!!! This book was *twisted* to the max. Jeremy & Verity are married, she is in a catatonic state. They hire Lowen to finish writing Verity's series of books due to her condition. Lowen starts to fall for Jeremy while living in their home. She also finds a manuscript written by Verity. It's twisty and twisted. Someone ends up dead and then Lowen finds a letter....explaining *everything!* That's it. I could NOT put this book down. 6 days. I couldn't put it down.
