

Joe Hart ~ Where They Lie

I've read this author before. I started this book on 5/21/2023. 227 pages. I finished this book on 5/30/2023. Characters were very well written. Chapters were short. Nora (the protagonist) works for CPS and has a case she just can't... The perfect family isn't always as perfect as they seem. Andrea (the third foster child) the oldest foster child has issues. She's placed with a family who's mother is an influencer. Things take a turn when the Ipad Nora finds contains nanny cam videos of Andrea and her step father together. Things start off south and go even further south.

I liked this book. Giving it an 8/10.
