

Natalie Barelli ~ Finders Keepers

Must be an Amazon First Read. It's not in Caliber library. First time reading the author. I just finished Mike Omer's "Please Tell Me". Starting this book on 1/24/24. **2/4/24** and I finished the book. **12 Days**

Rose, the troubled youth (but not really) is in love with one of her teachers. She's keeping a diary on the laptop that the teacher loaned her. Rose loses the laptop and Emily finds it. Emily publishes the diary as a book. Rose poses as "Iris" to get the laptop back from Emily. Rose is scared because she thinks she killed her teachers wife. Did she? Read the book and find out.

I liked the book, characters were well written. I could totally picture Emily and how "crazy" she was. Rose, I didn't have a picture in my head of what she looked like, was well written. I'm giving this book an 8/10. Kendra is reading it now.
